

NAME: BIANTEX

CLEANING-WHITENING POWDER FOR WHITE MARBLE FLOORS

It eliminates all kind of residues encrusted into the pores of the marble. It is specially efficient to recover the original white colour on marble surfaces which show yellow stains caused by the weather, rust or inadequate maintenance.

INSTRUCTIONS OF USE

The surface has to be clean and dry. Do not dilute or mix with other products. Pour a little quantity of the product (approx. 20gr.x sq.mt.) Over an area of about 2 sq.m. And add a little of water. Buff with the polishing machine fitted with a white pad and spread the paste over all the area to be treated. Gloss will appear while the paste is dissolved by buffing. If the mixture is getting dry, add a little of water to dissolve the product again. If the mixture is too liquid, use the other side of disc and buff again the surface, drying the liquid excess. Once the surface is dry and shinny, vacuum it and rinse with clean water.

CLP Regulation (EC) nº 1272/2008:

WARNING

Hazard indications:

Eye Irrit. 2: H319 - Causes serious eye irritation

Cautionary advice:

P101: If medical advice is needed, have product container or label at hand

P102: Keep out of reach of children

P103: Read label before use

P264: Wash thoroughly after use

P280: Wear protective gloves/protective clothing/eye protection/face protection

P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing

P337+P313: If eye irritation persists: Get medical advice/attention

P501: Dispose of the contents/containers in accordance with the current legislation on waste treatment

The information contained in this security data sheet is based on sources, technical knowledge and current legislation at European and state level, without being able to guarantee its accuracy. This information cannot be considered a guarantee of the properties of the product, it is simply a description of the security requirements. The occupational methodology and conditions for users of this product are not within our awareness or control, and it is ultimately the responsibility of the user to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information on this security data sheet only refers to this product, which should not be used for needs other than those specified.

FIRST AID MEASURES

Description of first aid measures:

The symptoms resulting from intoxication can appear after exposure, therefore, in case of doubt, seek medical attention for direct exposure to the chemical product or persistent discomfort

By inhalation:

This product does not contain substances classified as dangerous for inhalation, however, in case of symptoms of intoxication remove the person affected from the exposure area and provide with fresh air. Seek medical attention if the symptoms get worse or persist.

By skin contact:

This product is not classified as dangerous when in contact with the skin. However, in case of skin contact it is recommended to remove contaminated clothes and shoes, rinse the skin or shower the person affected if necessary thoroughly with cold water and neutral soap. In case of serious reaction consult a doctor.

By eye contact

Rinse eyes thoroughly with water for at least 15 minutes. If the injured person uses contact lenses, these should be removed unless they are stuck to the eyes, as this could cause further damage. In all cases, after cleaning, a doctor should be consulted as quickly as possible with the MSDS of the product.

By consumption:

Request medical assistance immediately, showing the MSDS of this product. Do not induce vomiting, but if it does happen keep the head up to avoid inhalation. In the case of loss of consciousness do not administrate anything orally unless supervised by a doctor. Rinse out the mouth and throat, as they may have been affected during ingestion. Keep the person affected at rest.

STORAGE

Precautions for safe handling::

A.- Precautions for safe manipulation

Comply with the current legislation concerning the prevention of industrial risks. Keep containers hermetically sealed. Control spills and residues, destroying them with safe methods (section 6). Avoid leakages from the container. Maintain order and cleanliness where dangerous products are used.

B.- Technical recommendations for the prevention of fires and explosions

Product is non-flammable under normal conditions of storage, manipulation and use. It is recommended to transfer at slow speeds to avoid the generation of electrostatic charges that can affect flammable products.

C.- Technical recommendations to prevent ergonomic and toxicological risks

Do not eat or drink during the process, washing hands afterwards with suitable cleaning products.

D.- Technical recommendations to prevent environmental risks

It is recommended to have absorbent material available at close proximity to the product

Technical measures for storage

Max. Time: 12 months

T^a min: 5 °C

T^a max 30 °C

General conditions for storage: Avoid sources of heat, radiation, static electricity and contact with food

PROPERTIES

Appearance:

Physical state at 20 °C:	Solid
Appearance:	POWDERY
Color:	WHITE
Odor:	Characteristic

Volatility:

Boiling point at atmospheric pressure:	Non-applicable *
Vapour pressure at 20 °C:	Non-applicable *
Vapour pressure at 20 °C:	Non-applicable *
Evaporation rate at 20 °C:	Non-applicable *

Product description:

Density at 20 °C:	1660 KG/M3
Relative density at 20 °C:	1,66
Dynamic viscosity at 20 a 20 °C:	Non-applicable *
Kinematic viscosity 20 °C:	Non-applicable *
Kinematic viscosity at 40 °C:	Non-applicable *
Concentration:	Non-applicable *
pH:	Non-applicable *
Vapour density at 20 °C:	Non-applicable *
Partition coefficient n-octanol/water 20 °C:	Non-applicable *
Solubilidad en agua a 20 °C:	Non-applicable *
Propiedad de solubilidad:	Non-applicable *
Temperatura de descomposición:	Non-applicable *

Flammability::

Flash Point:	Non Flammable (>60 °C)
Autoignition temperature:	Non-applicable *
Lower flammability limit:	Non-applicable *
Upper flammability limit:	Non-applicable *

* Not relevant due to the nature of the product, not providing information property of its hazards.
